

Step 1: Cut Open box but leave table laying in box so that the bottom of the table is exposed and the top does not get scratched while you are attaching the legs.

Step 2: Pick up one Leg and spread apart the top of the leg (the top of the 'triangle').

Step 3: With the top of the leg spread, hook it around the two curved pieces of metal on the bottom of the table to secure the leg to the table top.

Step 4: repeat with the 3 other legs.

Step 5: Carefully turn the table upright and discard boxes.
